

## MISSION STATEMENT

The main goal for Chemogas NV is to maintain and further develop a leading position in the sales and marketing of a strategically defined number of chemical products and related services.

In our strategy and philosophy, **TOTAL CARE** is a central issue : to safeguard the supply of quality products, linked with a perfect service.

On a periodic basis Chemogas NV performs a stakeholder analysis (PESTLE/SWOT), which allows to take strategic decisions.

Chemogas NV is a SEVESO upper tier company. Under all circumstances the safety of the personnel and the community has to be guaranteed. Chemogas NV adopts the philosophy that focuses on the prevention of major accidents where dangerous goods and substances are involved and on limiting and minimizing the possible effects for people and environment.

The execution of this prevention policy is assured by adhering to our Safety Management System. By installing and promoting the below mentioned directives, Chemogas NV continuously improves the Safety, Health, Environment and Quality care (SHEQ).

- The care for safety, Health, Environment and Quality forms an integral part of Chemogas' policy and receives the highest level of priority on all aspects involved whilst conducting business.
- The management of Chemogas NV is responsible for Safety, Health, Environment and Quality.
- The daily operations are carefully organized and have the aim to minimize the risks involved for people and environment which could lead to accidents.
- Potential sources of accidents are defined and eliminated.
- The necessary actions are taken in order to protect the environment, regardless whether proper legislation is in place.

Chemogas NV develops new products and installations that are in line with today's most environmental friendly technology.

The production and purchasing of raw materials and equipment is subject to standards respecting the environment.

Waste will be kept to an absolute minimum, and unavoidable waste which cannot be reprocessed will be disposed off and treated in a responsible manner.

The consciousness for Safety, Health, Environment and Quality of all employees is stimulated by means of training.

In advising our customers and in providing public information, Chemogas' activities for the protection of the environment will be propagated externally.

Grimbergen-Belgium, August 2018.
